

Csv Downloader Widget: A Step-by-Step Guide

INTRODUCTION

The CSV Downloader Widget is a handy tool that allows users to download data in the Comma-Separated Values (CSV) format from various sources. This widget provides a straightforward solution for exporting data, suitable for analyzing, sharing, or working with data in further detail.

In this step-by-step guide, we will walk you through the process of using the CSV Downloader Widget to download data from Zion.

1 Click "Dashboards"
